Port Facilities Released.

New York,-To increase the export grain handling facilities of the port of New York so that the Grain Corporation can send a total of 1,600,000 tons of grain and cereal products to Europe in the next 30 days, oat handlers of this city at a meeting agreed to adjust their private business to release the greatest possible percentage of the port facilities for this purpose.

Crusade Against moving rigidites. New York,-Mrs. Ellen A. O'Grady, Deputy Police Commissioner, announces she had ordered a crusade by women detectives against proprietors of moving picture theaters displaying such "suggestive immoral and filthy films" as she observed on a tour of moving picture houses. "Clergy, educators, judges and welfare workers," declared Mrs. O'Grady, "might as well lock up the churches, shut the books and close the courts if they permit the filthy motion pictures that are being shown throughout the country."

HOW BRAVE SONS OF NEW ZEALAND HELPED MOTHER COUNTRY.

-War imposes many sacrifices upon a nation engaged in it, and civilian life necessarily is disturbed. The United States will have to share with other belligerents the inconvenience incident to the conflict. But if anyone is inclined to feel discontented, he should take the trouble to note what has been done by New Zealand since the beginning of hostilities, That dominion, though under no legal obligation to aid England, has raised an army of more than 100,000 men. Her population is 1,500,000.

Since New Zealand has had a compulsory service law, she has drafted a large number of married men, both with and without children. The' dominion has raised \$130,000,000 in domestic war loans. A finance act was recently adopted which empowers the government to levy on salaries amounting to more than \$3,500 a year, and to take drastle and far-reaching measures in order to raise money, Maori have uncomplainingly furnished large quotas of men to the army. The whole country, in short, was determined to help vigorously to carry the war to a successful finish.

Canada and Australia have been no less unselfish in supporting the war. The wholehearted and entirely voluntary exertions of the British dominions furnish an inspiring example to the American people. When Canada, Australia, and New Zealand made such sacrifices for Great Britain, Americans might even more cheerfully endure hardships for their own country. When any "squalling" is heard, it is not from our brave young men or their families. It is from those who are horrified at the prospect of giving up a few luxuries.-Rochester Democrat and Chronicle.

Why Mangin Called a Halt. Soldiers have no illusions. They be

lieve in blunt facts, and General Marigin is no exception to the rule. A story is told of him by an artist from the Latin quarter of Paris,

The artist was commissioned to paint the general's portrait, and, as there was no other place available, he visited the general in his dugout for the first sitting.

After he had sketched in a rough, bold outline of Mangin's severe, square features, he was asked by his sitter to hand over the sketch before proceed-

"Ah, that's perfect," said General Mangin, "perfect! Don't touch it again. If you do, you'll flatter me!"

How "Silent Drill" Is Done,

The battalion drill is, of course, the great display feature at the United States disciplinary barracks at Fort Leavenworth. When a prisoner is promoted to membership in the battalion he discards the numbered prison uniform for one which is hardly distinguishable from that of a regular soldler. Members of the "honor committee," which is self-governing, wear special stars on their breast. They drill in a field near the prison. One of their impressive stunts is the "silent drill." which includes marching and rapid manual at arms without spoken commands.-Red Cross Magazine.

Why Compass Is Well Protected. One of the safest places in the war airplane is given to the compass, for without its aid the airman who is flying oversea or land on a misty day is hopelessly lost. Great attention is paid by American pilots training in England to the problem presented by "drift." If an airplane starts to fly from one point to another due east, and there is a wind blowing 15 miles an hour northeast, he must take that element into consideration by altering his compass course, before ascending. according to the total distance of the fourney.

Among the brigadier generals just promoted to be major generals for the period of the war is Hanson E. Ely. He went to the military academy from Iowa and was graduated with distinction from the infantry and cavalry school in 1905 and from the staff college in 1906.

BANDIT SLAIN; EIGHT TAKEN

Chicago Police Surround Saloon at Night and Capture Suspects After Long Siege.

Chicago, April 9.-Eight men, several of them said to have long police records, are under arrest at the stockyards station following a successful siege early in the morning of George Newton's saloon at 4250 South Halsted street. The saloon was surrounded for an hour by a detachment of police, who fired repeated volleys into the building. No shots were fired in return. After two or three failures to sneak from the building two of the beleaguered men opened a side door and surrendered. A few hours later Cleero police, in a revolver battle with two men whom they found prowling about the Chicago, Burlington & Quincy railroad yards, killed one.

Search of the Newton saloon disclosed property worth between \$1,500 one great organization, the rank and and \$2,000, which the police believe

MINNEAPOLIS BANK IS ROBBED

Six Bandits Take \$4,500 in Cash and \$13,000 in Bonds From Peoples' State

Minneapolis, April 9.-Six bandits held up the Peoples' State bank at Seven Corners, a busy Minneapolis business district, shortly before 10 o'clock this forenoon and escaped with \$4,500 cash and \$13,000 in Liberty bonds. Cashier A. E. Kolsted was locked in the vault. As the bandits ran from the bank to their automobile the handle of their satchel broke and considerable cash fell on the sidewalk. The men did not stop to recover it. J. P. Ernster, president of the bank, stepped from a street car near the building just as the bandits were departing. He had \$5,000 which he had obtained from another bank. Ernster suspected a robbery and notified the police from a drug
